AUDIT TYPE:

Unannounced Audit

AUDIT EXECUTIVE SUMMARY:

Ocean Mist Farms operates a 100,000 sq. ft. cold storage and distribution facility, which includes an open-sided short-term product storage area and an outdoor packaging storage area. The facility handles and pre-cools various field-packed products, including leafy greens, celery, and brassicas, all sourced from its own growers. Operations run from October to July, with 70 to 91 employees. The cold storage process includes receiving and inspecting field-packed products, followed by cooling methods such as vacuum tubes, forced air, and hydrovac systems using recirculated water with 10-20 ppm free chlorine (monitored). An ice injector system, maintaining 10-20 ppm free chlorine levels (monitored). Products are then stored in cold rooms before shipping. The facility uses city-water for cleaning, handwashing, and product contact. Allergens are received fully packed in sealed containers and segregated, stored in designated areas. Pest control services are outsourced.

Addendum(s)/Module(s) included in the audit:

U.S. FDA FSMA Preventive Controls for Human Food.

Product information for each product			
Product Group/Product Name	Observed Product	Seasonality	Country of destination for product
Spinach	Observed on the day of audit	From: October To: July	Canada, Japan, Korea, South, Mexico, United States
Romaine Lettuce (Hearts)	Observed on the day of audit	From: October To: July	Japan, Canada, Mexico, Korea, South, United States

CERTIFICATE VALID FROM:

Mar 28, 2025 To Mar 27, 2026

Product information for each product			
Product Group/Product Name	Observed Product	Seasonality	Country of destination for product
Broccoli	Observed on the day of audit	From: October To: July	Korea, South, United States, Japan, Canada, Mexico
Strawberries	Not observed but of a similar risk type to what was observed*	From: October To: July	Korea, South, Mexico, United States, Canada, Japan
Celery	Observed on the day of audit	From: October To: July	Mexico, United States, Japan, Canada, Korea, South
Cabbages	Observed on the day of audit	From: October To: July	Canada, United States, Korea, South, Mexico, Japan
Bell Peppers	Not observed but of a similar risk type to what was observed*	From: October To: July	Japan, Canada, Korea, South, Mexico, United States
Kale	Not observed but of a similar risk type to what was observed*	From: October To: July	Korea, South, Mexico, United States, Japan, Canada

CERTIFICATE VALID FROM:

Mar 28, 2025 To Mar 27, 2026

Product information for each product			
Product Group/Product Name	Observed Product	Seasonality	Country of destination for product
Cauliflower	Observed on the day of audit	From: October To: July	Canada, Japan, Mexico, Korea, South, United States
Parsley (Herb)	Not observed but of a similar risk type to what was observed*	From: October To: July	United States, Mexico, Korea, South, Japan, Canada
Endives	Not observed but of a similar risk type to what was observed*	From: October To: July	Mexico, Japan, Canada, Korea, South, United States
Radishes	Not observed but of a similar risk type to what was observed*	From: October To: July	Japan, Canada, United States, Mexico, Korea, South
Asparagus	Not observed but of a similar risk type to what was observed*	From: October To: July	Mexico, Canada, Korea, South, United States, Japan
Bok Choy	Not observed but of a similar risk type to what was observed*	From: October To: July	Korea, South, Japan, Canada, United States, Mexico

CERTIFICATE VALID FROM:

Mar 28, 2025 To Mar 27, 2026

Product information for each product

Product Group/Product Name	Observed Product	Seasonality	Country of destination for product
Sugar Snap Peas	Not observed but of a similar risk type to what was observed*	From: October To: July	Japan, Canada, Korea, South, Mexico, United States
Green Bean	Not observed but of a similar risk type to what was observed*	From: October To: July	Mexico, United States, Japan, Canada, Korea, South
Leeks	Not observed but of a similar risk type to what was observed*	From: October To: July	Japan, Korea, South, Mexico, Canada, United States
Melons	Not observed but of a similar risk type to what was observed*	From: October To: July	Canada, Japan, United States, Mexico, Korea, South
Watermelons	Not observed but of a similar risk type to what was observed*	From: October To: July	Korea, South, Mexico, Canada, Japan, United States
